August 24, 2010

Dear Dave,

We just wanted to drop you a note and let you know how well the Auto 34 is working in our shop.

Our business is tires so we appreciate the Auto 34 ease of operation and its ability to handle almost any tire size. In addition, we are also receiving more business from other local shops as we can handle the large and performance tires they cannot. You were correct when you indicated that it would pay for itself in additional business and time savings.

Looking forward adding a Roadforce Balancer. We will be speaking with you soon.

Sincerely,

Steve Bertrando

Owner
