Date: August 16, 2023

ANNOUNCEMENT

As we approach the deadline for Nissan's **Alignment and Wheel Balancing Equipment Requirements** detailed in **Nissan Service Information Bulletin NSIB 20-004**, we are excited to announce a direct partnership between Nissan TechMate and Hunter Engineering. With this new partnership, you can purchase Hunter Engineering equipment directly through Nissan TechMate, ensuring that you receive the best pricing with the convenience of NVA billing.

Your local Hunter Engineering sales team serves as your contact for purchasing Hunter Engineering equipment directly through TechMate and will help you get the right equipment for all your wheel and tire service needs. To arrange an assessment of your current equipment, obtain quotes for equipment upgrades or new equipment, and to order Hunter Engineering equipment directly through TechMate, simply reach out to your local Hunter Engineering Sales and Service team.

Please join the TechMate and Hunter Engineering teams at the **Nissan 360 Experience** booth during the National Dealer Meeting in Las Vegas to learn more!

You can find your local Hunter Engineering sales and service teams by following the QR code, or on the web:
