RX10 & RX12 Scissor Lifts

Maximum productivity, minimum space
**RX10/12 Scissor Lift**

*Large capacity with a small footprint*

---

**STANDARD**

**Wide runways**

- 24 in. runways accept wide vehicles

**Stainless steel turnplates**

- Maximum corrosion resistance for long life
- Optional PowerSlide® turnplates (shown) lock/unlock automatically

**STANDARD**

**Integrated air line**

- Convenient air source for tools at front and rear

**PATENTED**

**Sensor feedback system***

- Sensors keep runway level
- Safely stops if obstructed

**STANDARD**

**Velocity safety fuses**

- Instantaneous shutdown in event of hydraulic failure

---

*Shown with protective cover removed*
Two Swing Air Jacks

- 6,000-lb. capacity
- Technicians’ favorite

Louvered ramps

- Prevent wheel spin in wet conditions
- More effective than diamond tread or abrasive strips

Control panel

- Complete operation from the console
- Optional PowerSlide® Inflation Station and FIA control

Safety locks

- Precision-fit teeth lock runways at 16 level height positions

Movable work steps

- 10 secure positions
- Lightweight design

Inflation Station

- Automatically fills or bleeds each tire
- No dangling air lines
**Exclusive features, enhanced capabilities**

**EXCLUSIVE**

**Fast descent speed**
- 50% faster lowering times
- Ensures a soft landing by automatically slowing the last several inches

**STANDARD**

**Swing Air Jacks**
- Lift vehicles off the runways during alignment procedures and other multi-service operations
- 6,000-lb. (2722-kg) capacity
- Folding design provides lowest-profile

**EXCLUSIVE  OPTIONAL**

**Flush-mount installation**
- Accommodate lowered vehicles or expensive spoilers
- Ideal for “showcase” shops
- Drive-thru capability

Add **F** to any RX10/12 model number
**Approach ramp extensions**

- **12 in. kit** – 20-3112-1
  Standard with RX12K
- **17 in. kit** – 20-3113-1
  Adds approximately 5 in. to RX12K when substituted for 20-3112-1

**Drive-thru conversion kits**

- **52 in. kit** – 20-2498-1
  For camera sensors
- **63 in. kit** – 20-2501-1
  For conventional sensors

---

**AlignLights system**

- Bright and efficient LED light source underneath the vehicle
- Automatically turns on when the lift is raised and turns off when the lift is lowered to the floor
- AlignLights is an ALI-listed accessory

**20-3438-1 — AlignLights system**

**Standard equipment**

- Stainless steel turnplates
- Flush-mounted, full-floating slipplates (PowerSlide® slipplates on PS and IS models)
- Two movable work steps (not included with flush-mount installations)
- Louvered ramps with built-in wheel stops
- Front wheel stops
- Two wheel chocks
- Built-in, full-length jack rails
- Built-in air line kit

**Extension kits**

**OPTIONAL**

- **40 in. kit** – 20-2169-1
  Adds approximately 28 in. to RX12K
- **50 in. kit** – 20-2189-1
  Adds approximately 38 in. to RX12K

---

*Quick-release pins included.*
Hunter offers two fully integrated options to enhance productivity

FIA allows WinAlign® aligners to control the lift features for ultimate productivity. Two patented designs offer greater flexibility and time-saving capabilities.
PATENTED

**PowerSlide® edition**

- Locks slipplates and turnplates with the touch of a button or automatically through an FIA-equipped aligner*
- No more struggles with lock pins
- Avoid wear and tear and extend the life of your turnplates

---

**Inflation Station edition**

- Includes PowerSlide® slipplates and turnplates
- Automatically inflate all four tires simultaneously
- Record starting and final pressure*
- Hose recoils to keep work area clear

---

Minimize trips around the car

1. Mount targets
2. Make adjustments
3. Remove targets
4. Jack vehicle and compensate sensors
5. Lower leveling legs (if equipped)
6. Remove slipplate and turnplate pins
7. Replace slipplate and turnplate pins
8. Raise leveling legs (if equipped)

Yesterday’s Technology

1. Mount targets
2. Make adjustments
3. Remove targets
4. Jack vehicle and compensate sensors
5. Lower leveling legs (if equipped)
6. Remove slipplate and turnplate pins
7. Replace slipplate and turnplate pins
8. Raise leveling legs (if equipped)

* Requires FIA equipped aligner with WinAlign® 10.x software or greater
