**Space consideration for storage of accessories and targets:** For large and compact consoles, add 29 inches to width for TD targets and add 10 inches to depth for rear accessory storage.

If mounting two DSP700T sensors and mini adaptors, add 32 inches to width and 10 inches to depth (front).

If mounting four DSP700T sensors and adaptors, add 32 inches to width, 10 inches to depth (front) and 12 inches to depth (rear).
