

Integrate your Hunter technology!

Integration makes your shop more productive and efficient while increasing revenue and customer satisfaction. Your Hunter inspection results are automatically shared with integration partners, no keystrokes required.

- ✓ Accelerate inspection process
- ✓ Present good, better, best tire offers
- ✓ Secure more service authorizations
- ✓ Increase productivity by eliminating duplicate entries
- ✓ Provide more satisfying experience for customers
- ✓ Maximize service revenue
- ✓ Increase customer retention

“Before Hunter integration, we were selling an average of 45 alignments per month. Now, we have seen that **jump to 250 alignments per month on average.**”
