TCX57 & TCX56
Advanced Conventional Tire Changing Systems
### Key features at a glance

#### Bead Press System
- Tremendous power and control
- Aids mounting and demounting
- Auto-centering simplifies operation

#### Swing-Arm Column
- Saves space over tilt-column designs
- Locks rim diameter and width measurements for same-sized wheels

#### Locking Lower Arm
- Helps demount heavy and difficult tires
- Assists match-mounting

#### Tabletop Clamp
- 6-30 in. clamping range
- Measurement marks ease clamping
- Twin-cylinder actuators exert more clamping force than single-cylinder designs

#### Motor and Drive
- Powerful 220V high-torque motor
- Two-speed forward drive

#### Wheel Lift Option
- Eases servicing of large assemblies

#### Leverless Tool Head
- Lifts bead without use of levers
- Relieves bead stress
- Traditional head option

#### PowerOut™ Bead Loosener
- Fingertip control makes large assembly service easy
**Superior rim handling**

**TCX57 Fast and Easy Leverless Tool Head**
Leverless operation eliminates:
- ✓ Technicians straining to pull over tough beads
- ✓ Bead damage from manual levers
- ✓ Rim damage from lever during demounting

Easy-to-operate controls:
- ✓ Simple switch activates leverless system
- ✓ Familiar mount head design
- ✓ Familiar mounting techniques

**TCX56 Traditional Tool Head**
Choice of:
- ✓ Polymer head
- ✓ Steel head with polymer insert for wheel protection

---

**EXCLUSIVE**

**Locking Lower Arm**

Demounting with locking arm
Demount heavy, stiff or wide tires easily with roller disc.

Match-mounting made easy
Lower locking arm allows operator to spin the tire for match mounting.
The Bead Press System speeds and eases clamping, lubricating, demounting and mounting the toughest wheel and tire combinations. The exclusive system centers the wheel and tire to ensure maximum service strength and rigidity.

Wheel press cones and extension arm simplify external clamping when servicing low-profile tires.

Rising cam action smoothly guides the bead through mounting.

Dynamic bead press system
Demounting:
Integrated Tools Ease Labor

Tapered roller discs assist bead lubrication and ease demounting.

The bottom roller disc can be used for bottom bead reloosening, demounting or match mounting.

A single bead press roller disc with rotating arm can quickly mount and demount stiff sidewall tires.

The flip down, fixed bead press arm adds additional contact to service the most extreme low-profile tires and deep drop-center wheels.
Exceptional clamping

Easy-to-Use, Adjustable Tabletop
- Built-in adjustment system provides 10- to 26-in. clamping range
- All jaws adjust simultaneously for mistake-free clamping
- Polished tabletop for easy cleanup
- Hi-grip jaw covers add mounting torque and protect wheels
- Diameter marks aid external clamping

Standard Clamping Accessories
- Jaw extender and reducer expands clamping coverage
- Extends range to 30 inches (+ 4 in.) or reduces to 6 inches (- 4 in.)
**PowerOut™ side shovel**

- Fingertip control eases service of large assemblies
- Smoothly pulls tire out of stuck beads, saves time in positioning
- Three-way adjustable shovel angle

**EXCLUSIVE**

**Automatic swing arm**

- With the push of a single button, the swing arm locks the wheel diameter and width
- 30% smaller footprint than tilt-column designs
- Foot pedal operation keeps hands free

**Powerful motor and drive**

- Two-speeds forward (7 and 17 rpm) for efficiency or finesse
- Single speed in reverse (7 rpm)
- 220V high-torque motor delivers ample power for difficult conditions
Equipment upgrades

Wheel Lift

Optional wheel lift eases servicing of large assemblies. Allows for more careful handling of expensive wheels. (20-2045-1)

TCX56 Standard Head Alternative

Hunter’s TCX56 Tire Changer has all the power of the TCX57 with the choice of a polymer or steel traditional tool head. A perfect match for the traditionalist who wants big power in a low-tech package.

TCX57 / TCX56 includes:

- Bead Press System (BPS) with:
  - Primary traveling arm
  - Fold-away fixed arm
  - Pressing cones (standard and light)
  - Pressing cone extension
  - Demount disc
- Jaw extension/reducers
- Standard bead lever and bead lever polymer protectors
- Shovel protectors (polymer)
- Hi-grip jaw protectors

Ordering Information:

TCX57 – Electric leverless tabletop changer
TCX57W – Electric leverless tabletop changer with wheel lift
TCX56 – Electric tabletop changer
TCX56W – Electric tabletop changer with wheel lift
